

VISIT...

LANZAROTE  
*Caliente*.COM

Some animals are pets. Other kinds of animals are put to work to help people. Today you'll hear about two animals that can help a person in need.

Day 2

Dear Class,

First we'll talk about why guide dogs must be smart. Then you'll read about a lucky animal who gives a party.

Day 3

Dear Class,

We have learned so much this year. Let's talk about something else we can do. We might try to learn a new song or dance this week!

Day 4

Have you ever dreamed about going around the world? Would you like sailing on the ocean or flying in a jet?

Day 5

Hello, Class,

Did everyone put a suggestion in the Suggestion Box for something new to learn? Maybe some of you forgot. It's not too late, though. We'll open the box later.

Theme 9 Week 2 Day 1

Good Morning, Class,

Let's talk about our day. We will be hearing a story about a frog and a snake. I hope you like it.

Day 2

Hello, Class!

Let's talk about Frog Helps Snake.  
Even though Frog helped Snake, Snake  
still wanted to eat him. How else could  
Snake treat Frog?

Day 3

Dear Children,

I have a silly rhyme for you:

Oh me, oh my!

Why did the fly cry?

Was it trying to fly?

Was the weather too dry?

Why, oh, why?

Day 4

Dear Children,

What could I do if I wanted to buy some pretty flowers? I could start by driving my car to a store that I have shopped at before. I could try to go when school is done.

Day 5

Dear Class,

Before you eat lunch, you should wash your hands. After you eat, you can clean off the table. What can you do after that?

Hello, everyone!

I am thinking of the word off. Does it come before or after the word wash in the dictionary? Does it come before or after the word school? Does it come before or after the word buy?

Good morning!

You will be making family portraits in the art center this week. I have a pretty good idea who you all will include. I can't wait to see them. Maybe we can hang the portraits up when they are done.

Day 3

Good Morning, Boys and Girls!

Today we will be reading a new story together. You can never get enough practice when learning to read. I hope you are reading at home and not only when you are at school.

Day 4

Happy \_\_\_\_\_!

Today we will be looking at The Surprise Family again. When I see the part about the chick sleeping under the boy's quilt, it makes me smile. Which part makes you smile?

Hello, class!

Have you ever watched a baby bird and its mother? The mother bird sometimes uses her sharp beak to open seeds for the baby. You can see birds in gardens, trees, and parks. What kind of birds have you seen?
